

The world's favourite lock since 1843

**we're  
in the  
frame**

After years of **securing** your doors  
Yale is now securing your **windows**

**Encloser  
Window  
Locks**

The Yale Encloser's anti separation 'mushroom' cams work in pairs, locking from either side into robust zinc alloy strikers, delivering optimal security performance and unparalleled weatherproofing, through easy adjustment of the mushroom cams.

Manufactured to the highest specifications and tested to the latest British Standards BS7950 security criteria, the Yale Encloser product range covers all sash sizes from 270mm-1400mm.

With the Yale Encloser, protected by our 10 year security guarantee, providing your customers with Yale backed peace of mind has never been easier.

Centre case
