Our business is based on sourcing and fabricating the best possible products and a great service, and along with a fully employed, established and loyal workforce, we have earned a widespread reputation for high-standards and reliability throughout the home improvement market on the Wirral, Merseyside, Chester & North Wales.

REHAU & Everite

Reliability, Trust, Expertise.

REHAU

A company you can trust

REHAU was founded in Germany in 1948 and first entered the UK market in 1962. Today we are a truly global company, established in over 50 countries and with more than 20,000 employees. REHAU were one of the first companies to produce and sell PVCu window and door systems in the UK and today 98% are produced in our state of the art manufacturing plant in North Wales - bringing together the best in German design with UK manufacture.

Not only are we one of the most established market leaders in the industry, our range of innovative polymer products attract globally respected and high profile companies such as BMW, Mercedes and Airbus.

We recommend that you discuss colour samples with your local REHAU installer or request a colour swatch at **enquiries@rehau.com**

SLINOVA®

The Slimline Sliding Patio Door.
Stylish, Secure and Sustainable.

SLINOVA the new slimline sliding door with outstanding stability, security and energy-efficiency. With SLINOVA's large glazing area and slim frame you can maximise the amount of natural light in your living area.

SLINOVA creates harmony between interior and exterior with its slim design and extensive glass surface. Opening in one smooth movement, enter a world where performance and design are one and the same. Offering you more light and comfort, SLINOVA blends into your living space, letting more of the outside in. With more people working from home, the benefit of natural light for our wellbeing has become evermore important. With this in mind REHAU and Everite understand the importance of providing you with a sliding door that achieves just that.

Like REHAU TOTAL70 (70mm system) you can be sure of the same exceptional weather performance, energy efficiency and security that applies to all products.

Performance and Design:

- ✓ Fully accredited including Severe Weather Performance to the highest BSI standard
- ✓ Excellent Thermal Performance with 0.8 U Value and BFRC A++ (with 36 or 44mm triple glazing)
- ✓ Enhance security – PAS24 accredited
- ✓ Ultimate Safety – Secure by Design certification
- ✓ A discreet 80mm frame depth
- ✓ Increased airflow and circulation due to larger sliding element
- ✓ Easy to operate, durable, low maintenance and easy to clean
- ✓ Flexibility of dual and triple track system
- ✓ 2, 3, 4 and 6 pane options opening from either left, right or even from the centre, for complete flexibility.

A range of design configurations that adapt to your home

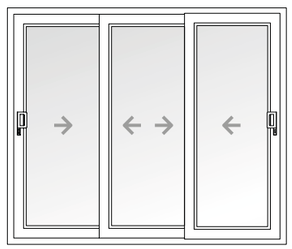
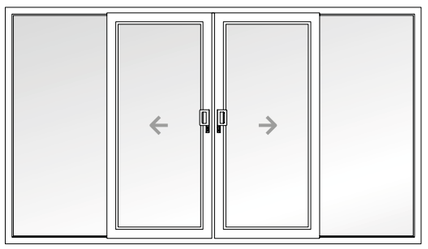
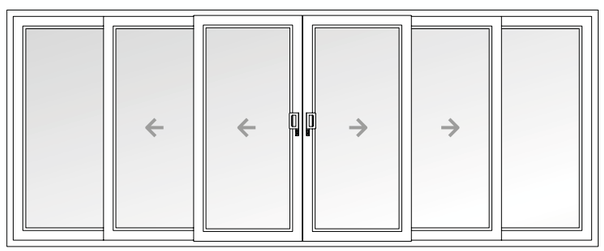
Two moving panes



Three moving panes



Two moving panes opening from the centre



Four moving panes opening from the centre

SLINOVA®
makes the transition from indoors to outdoors much smoother, in a single simple and light movement.
Its minimalist design allows for a clear view to your world.

SLINOVA: Your style down to the last detail

The SLINOVA® sliding door can be customised to your specifications. In addition to providing you with day-to-day comfort, it enhances the architecture of your home. Choose the colour and design that best suits you from the REHAU colour range.

REHAU's laminate foils are durable, scratch resistant, can be easily cleaned and offer high performance and longevity in all types of weather conditions. The latest addition to the SLINOVA suite is the colour ALUX which replicates the look and feel of aluminium perfectly. Every SLINOVA door also has the option of featuring the same colour finish inside the home, for a custom look.

The appearance of your windows and doors will stand the test of time, keeping your home fresh and new for years to come. Your home, your choice, your colour.

Rio flush fit windows

When it comes to design features and sophisticated styling, the Rio flush fit window is in a class of its own

The windows have been specifically designed so that the opening sash of your window sits flush with the outer frame, giving a unique sleek and seamless appearance.

As with all REHAU windows, safety, security and longevity of your windows is paramount. Your Rio flush fit windows benefit from enhanced noise reduction, energy efficiency and are easy to maintain, keeping your windows looking good throughout their lifetime.

The authentic timber alternative window

Our stylish and elegant Rio flush fit creates an inspired modern look, creating a seamless alternative to aluminium as well as authentically replicating features of a traditional timber window, without compromising the care and attention that you have already given to your home.

Fully-welded joint

Warmth & Security:

- ✓ Excellent Thermal Performance with 0.8 U Value and BFRC A++ (with 36 or 44mm triple glazing)
- ✓ Enhanced Security - PAS24 accredited
- ✓ Ultimate security - Secured by Design certification
- ✓ Virtually maintenance free
- ✓ Exceptional noise reduction

Stay safe with Rio

Your home is the heart of family life, and knowing it is secure and protected is important.

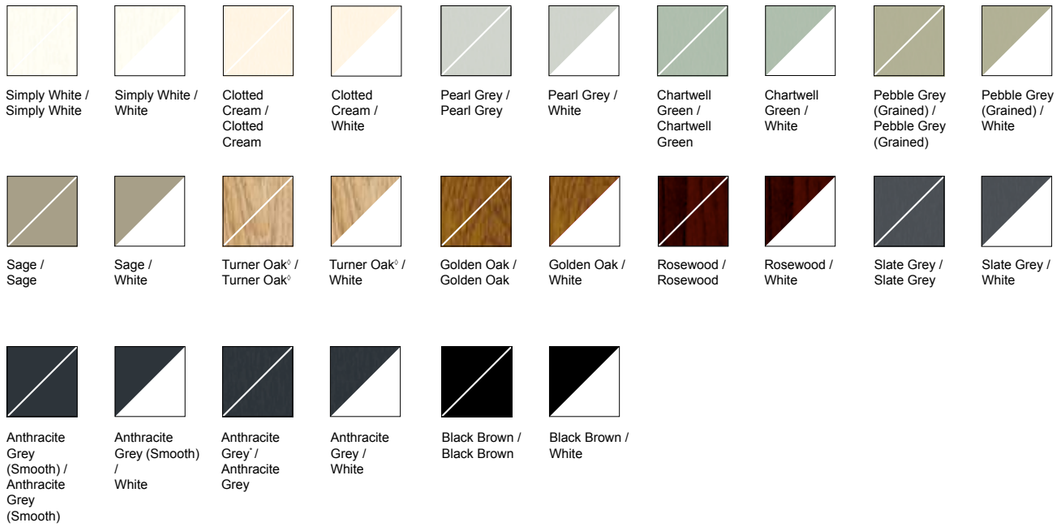
Rio flush fit windows offer a range of benefits to enhance your home, family and the environment.

A colour for all

A beautiful array of colour options and combinations present you with a range to suit any home style and décor preference

Colour combinations
Every Rio flush fit window even has the option of featuring the same colour finish inside the home, for a custom look consistent with the home's interior.

Choosing Rio flush fit will add a touch of timeless style. Modern materials and a rich spectrum of colour options combine to offer a window with style and sophistication at its heart. From the traditional and highly textured Turner Oak, to the modern Anthracite Grey, you will find the perfect match for your home.



Due to the printing process, the colours shown are as a guide only and may differ to the physical colour foils.
˚Grained both sides, available on Grey Base Profile. ◊ Turner Oak is supplied by: woodec

Sustainability.

Shaping the future. Together.

REHAU UK is one of the top UK recycling system houses in the Fenestration industry.

REHAU Recycling

Sustainability powered by PVCR.

PVCR has been a member of the REHAU Group since 2014, giving us a strong platform for growth and innovation in waste management and uPVC recycling, making us the largest uPVC recycler in the North West. With sustainability as one of our core values, we are constantly working hard with our technical experts and development teams to minimise waste at every opportunity, using every part of the product to create new uPVC window systems through our unique co-extrusion process.

Our investment in co-extrusion technology has enabled the use of recycled post consumer waste within our TOTAL70 range, thus ensuring a closed loop process. Consequently we hold the British Standards certification BS EN 14001 for environmental standards.
www.pvcr.co.uk

Production
Our partner customers produce EcoPuls labelled profiles, to bring you eco-designed, sustainability-produced products that **save up to 97,000 tonnes of CO_2 per year.**

Installation
REHAU products with the EcoPuls label are then installed in your home by our network of partners, **save 13 kg of CO_2 in replacement and 17 kg of CO_2 in new construction, per window.**

Manufacturing
REHAU manufactures profiles with the EcoPuls seal. Thanks to the co-extrusion process, REHAU combines recycled and virgin raw materials without impairing the performance and usability of the new profile.

Our circular economy

REHAU EcoPuls
Sustainable Development

Collection
Every year, **millions of old uPVC windows, doors and production offcuts** are reused in the production of new profiles with the EcoPuls label. For this reason, REHAU maintains an extensive networkfor the collection of these materials.

Recycling
Collected old windows, doors and production off-cuts are carefully selected and sorted into different raw materials (e.g. glass, uPVC and steel) and then recycled. The uPVC components are then processed into high quality chip. The production of EcoPuls uPVC recycled profiles **saves up to 88% in CO_2 emissions**, compared to the production of a standard profile on the market.
